## **Release Notes**

#### 1.1 Overview

Item	Description
Product model	Access ANPR camera
Version	2.625.0000000.2.R.210714
Software	General_ITC215(237)-PW6M-
package	XXX_Eng_PN_Oversea_ITCPUSH_AreaSwitch_V2.625.0000000.2.R.21
information	0714.zip
OS requirement	None
Release date	2021/07/14

### **1.2 New Features**

No.	Feature Description
1	Support more regional license plate algorithm
2	Support new RS485 LED scree
3	This version fixes some bugs, improves the product performance, and strengthens product security on the basis of the last version.

## 1.3 Fixed Bugs

None

#### **1.4 New Feature Details**

None

## 1.5 Compatibility

Do not downgrade the program after it is updated to the latest version.

## 1.6 Software Environment

Platform	Model	Version
	DH_NVR5XX	DH_NVR5XXX-
NVR	Х	4KS2_MultiLang_V4.001.0000003.2.R.201010.zip
PMS	PMS	General_PMS_Eng_Basic_V1.004.10GP000.0.R.20200807.zip

Platform	Model	Version
	Discos	General_SmartPlayer-
	Player	Win32_Eng_IS_V4.001.0000001.0.R.200916.zip
Tool		General_ConfigTool_ChnEng_V5.000.0000001.3.R.20200912.
	ConfigTool	zip
		(customized version for update in public network)

### **1.7 Pending Issues**

None

### 1.8 Update Guide

ConfigTool supports updating cameras one by one or in batches.

- Updating cameras one by one is ideal when few cameras are involved, and login usernames and passwords of the cameras are different.
- Updating cameras in batches is recommended when multiple cameras are involved, and login usernames and passwords of cameras are the same.

#### Preparation

Before updating, make sure that:

- You have obtained the latest ConfigTool installation package (General\_ConfigTool\_ChnEng\_V5.000.0000001.3.R.20200912). If not, go to our official website, and then obtain the tool from **Support > Download Center > Tools > Toolbox**.
- The IP address of the PC installed with ConfigTool and that of the camera are in the same network segment.

#### Procedure

<u>Step 1</u> Open ConfigTool, and search for the camera, or you can manually enter the IP to search.

#### Figure 1-3 Select update file

<u>Step 5</u> Update the camera.

- Update the cameras one by one: Click **Upgrade**, and the system starts updating. You can see the update progress.
- Update the cameras in batches: Click **OK**, and the system starts updating.

#### $\square$

If the camera is disconnected from network during updating, as long as the ConfigTool stays on the update interface, the update will resume when the connection is restored.
