Release Notes

1.1 Overview

Item	Description
Product name	Network Video Recorder
Version	V4.001.0000000.1
Software package information	DH_NVR1XHC-S3_MultiLang_V4.001.0000000.1.R.200702.zip
Model	DHI-NVR1104HC-P-S3, DHI-NVR1108HS-8P-S3, DHI-NVR1104HC-S3, DHI-NVR1108HC-S3, DHI-NVR1108HC-S3(V2.0), DHI-NVR1104HC-S3(V2.0), DHI-NVR1104HC-P-S3(V2.0), DHI-NVR1108HS-8P-S3(V2.0)
Onvif Version	2.6.1
OS requirement	None
Release date	2020-07-02

1.2 Product Introduction

This product is mainly used indoors. Combined with IP cameras, you can use this NVR to complete real-time monitoring and recording. It supports configuring basic parameters by using mouse, and you can build a security monitoring network through web or other professional software developed by Dahua. Product functions include real-time monitoring, record playback, alarm and other auxiliary configuration functions.

1.3 New Features

Feature	Description
Security baseline V2.1	<ol style="list-style-type: none">1、locked dangerous commands in the system.2、pports disabling unsafe services, and those services are disabled by default.3、portant operations log.4、twork data transfer encryption control.5、n-sensitive data information saved in device-end.6、condary authentication for restoring factory defaults.7、cord logs of important operations.8、ded prompts of data deletion.

Feature	Description
Product security UI	<ul style="list-style-type: none"> 1、terface adjustment: Use Security Center as the entry in main menu. 2、 d security status page. 3、 ded security information scanning function to detect supported security modules. 4、 ded detailed information of security modules, and the optimized modules will be displayed in green icon. 5、 ing page is moved to SYSTEM submenu. 6、 d CA certificate management function.
Fast live on Web	Fast live on Web
Optimized playback function on local GUI	<ul style="list-style-type: none"> 1、 Supports custom fast play 2、 Supports selecting channels during playabck 3、 Optimized cursor and time bar
Quota management	<ul style="list-style-type: none"> 1、 Supports storage by quota. 2、 Supports setting quota for both videos and images. 3、 Support for the switching of disk quota mode and disk group mode. 4、 The switching of storage mode requires formatting HDD.
Disk error details	<ul style="list-style-type: none"> 1、 Disk error details are written to log. 2、 Disk error details are written to hddinfo file. 3、 Supports exporting hddinfo file along with configuration file for system analysis. 4、 Does not support exporting hddinfo file on web.
Quick operation bar	<ul style="list-style-type: none"> 1、 Added a quick operation bar in the local secondary menu for fast jumping to the same level menus. 2、 Quick operation bars are added in secondary menu and setting pages. 3、 SEARCH submenu does not support quick operation bar, and you can jump to SEARCH submenu from quick operation bar in other submenus.
Adding remote devices with IPV6 address	<ul style="list-style-type: none"> 1、 Supports adding remote devices with IPV6 address 2、 Supports manually adding remote devices with IPV6 address. 3、 Supports DHCP IPv6 4、 Supports IPv6 config for email server 5、 Supports FTP IPv6 6、 Searching for front-end devices with IPV6 address is not supported currently.

Feature	Description
One-click disarming	1、 Supports one-click disarming, which is disabled by default. 2、 Supports individually disarm linkages such as Buzzer, Show Message, Alarm-out Port and Send Email. 3、 The Live interface uses a bell icon on the upper-right corner of video channels to display disarming status. The intact bell icon is displayed by default, and when disarming is enabled, the bell icon is displayed with a slash. 4、 Supports enabling and disabling disarming on the upper-right corner of video channels on Live interface. 5、 Supports one-click disarming function on client software such as DMSS client.
SSH service	1、 Supports visiting devices through SSH service. 2、 Provides SSH enable switch. After it is enabled, you can visit devices through SSH service.
New languages	Norwegian, Ukrainian, Hebrew, Turkish, Indonesian.

1.4 Fixed Bugs

None.

1.5 Instructions for New Features

1.5.1 Fast Live on Web

A **Fast Live** function is added on the upper-left corner of the LIVE interface. User can define the channel from which to start multi-window viewing. It starts from the first connected channel and is 4-window play by default.

4-Window live view applies main stream. If the split exceeds 4, the system applies sub stream.

1.5.2 Optimized Playback Function on Local GUI

Playback function on local GUI is optimized and the following functions are added: Custom fast play; channels can be selected during playback; cursor and time bar are optimized.

i. Supports custom fast play

Set play intervals such as 1, 3, 5, 15, 30 min or 1 hour.

ii. Channels are selectable during playback

Supports adding or reducing channels during playback, and the time bars increase accordingly.

iii. Optimized cursor and time bar

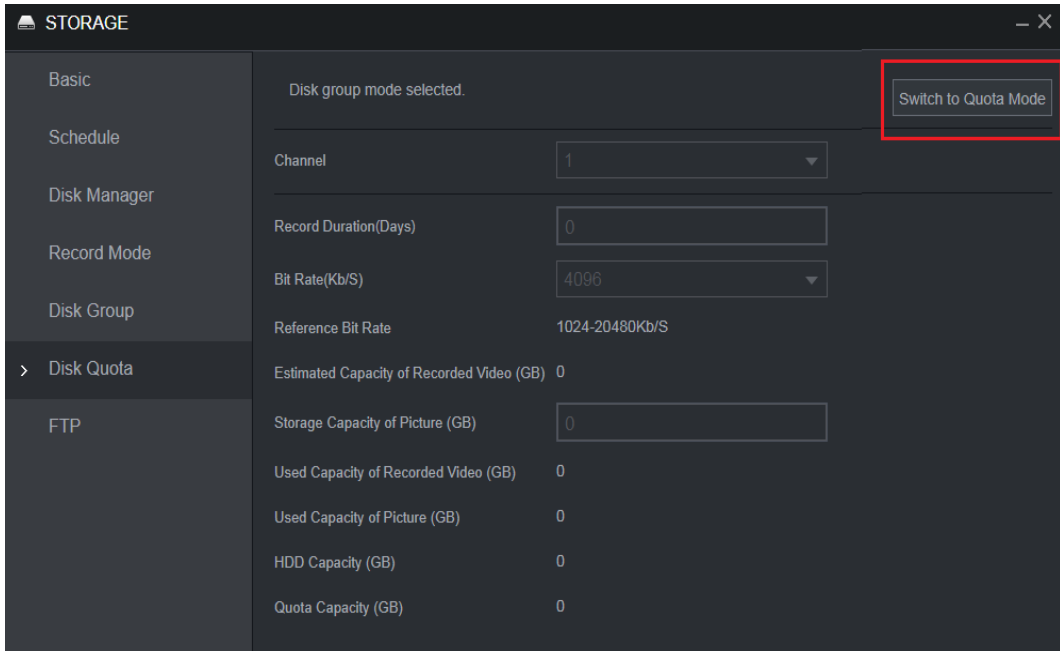

The vertical lines on the cursor and time bar are merged into one. During playback, time bar line is used as cursor. The vertical line moves as you drag the time bar.

When the vertical line is on the left end of the time bar, if you drag the time bar to the left, the line keeps still; if you drag the time bar to the right, the line moves right. When the vertical line is on the right end of the time bar, if you drag the time bar to the right, the line keeps still; if you drag the time bar to the left, the line moves left.

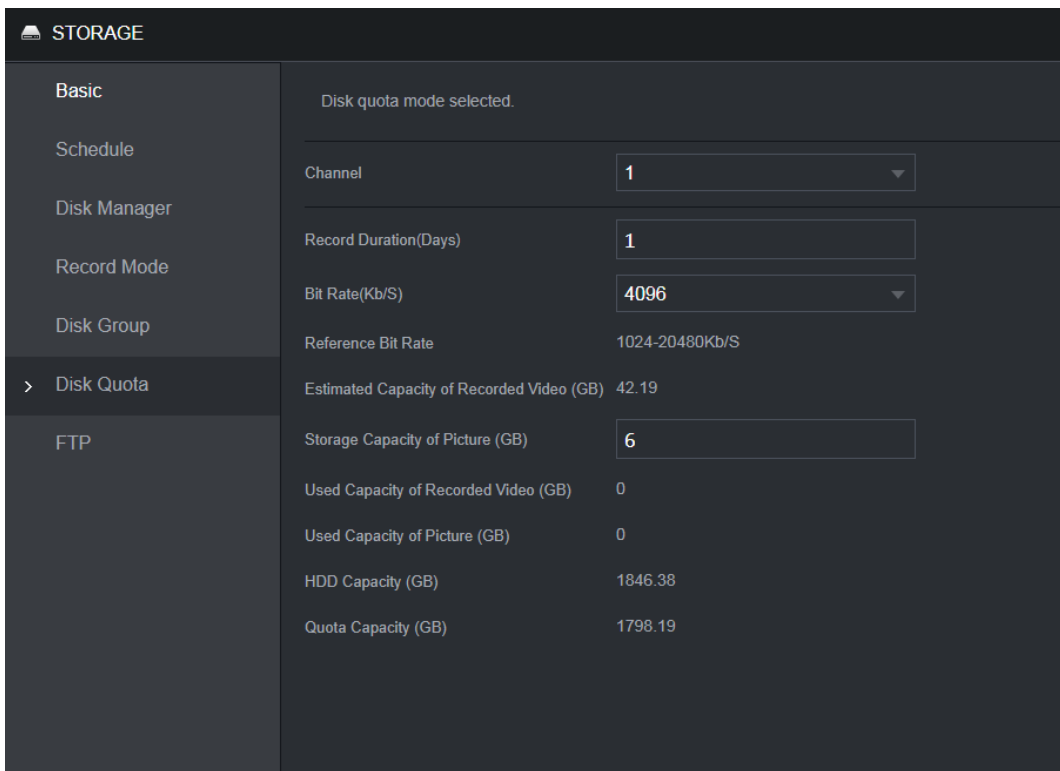

1.5.3 Quota Management

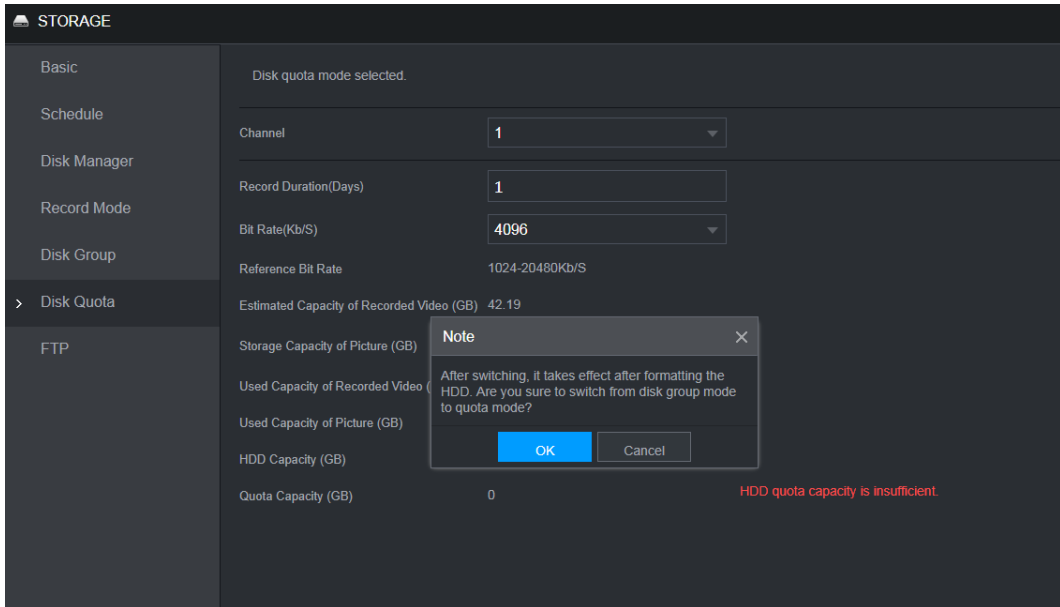

- i. The NVR supports quote management. Disk group mode is selected by default, and cannot be enabled with quota mode at the same time. You can switch storage mode on the interface below.

- ii. Quota management allows storage capacity to be set by channel, and videos and images can be configured separately, and the remaining configurable space is automatically calculated.

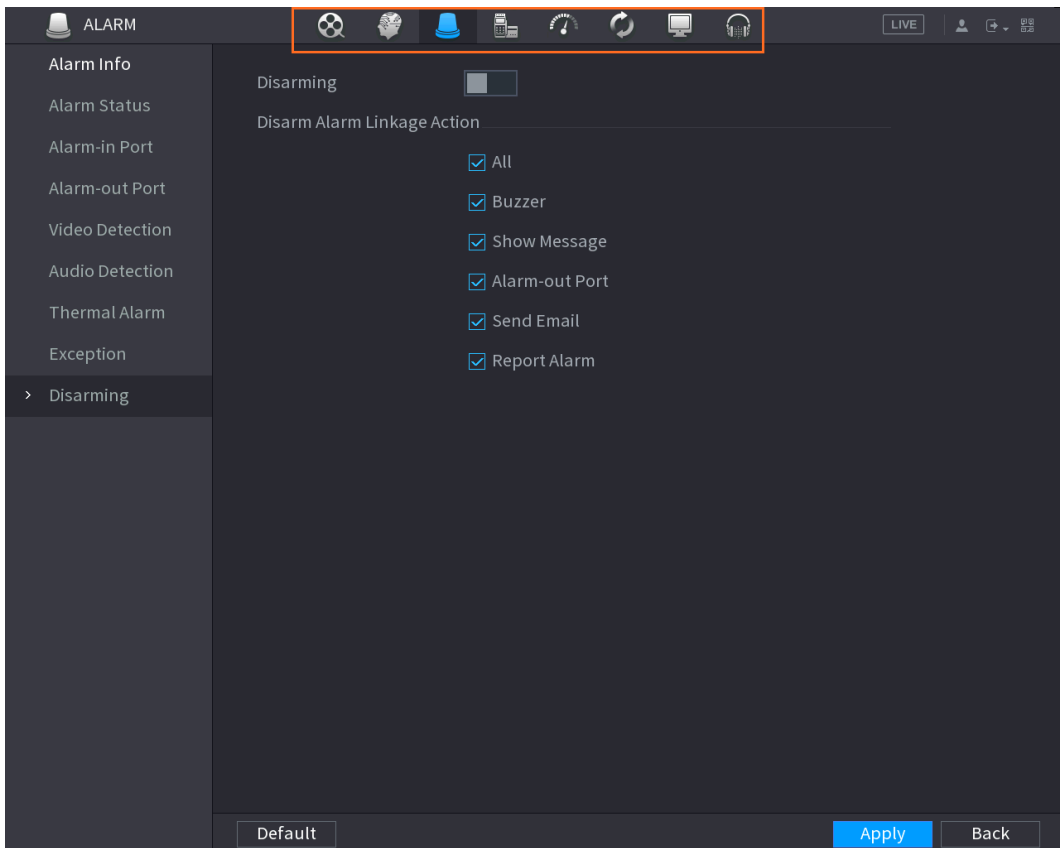

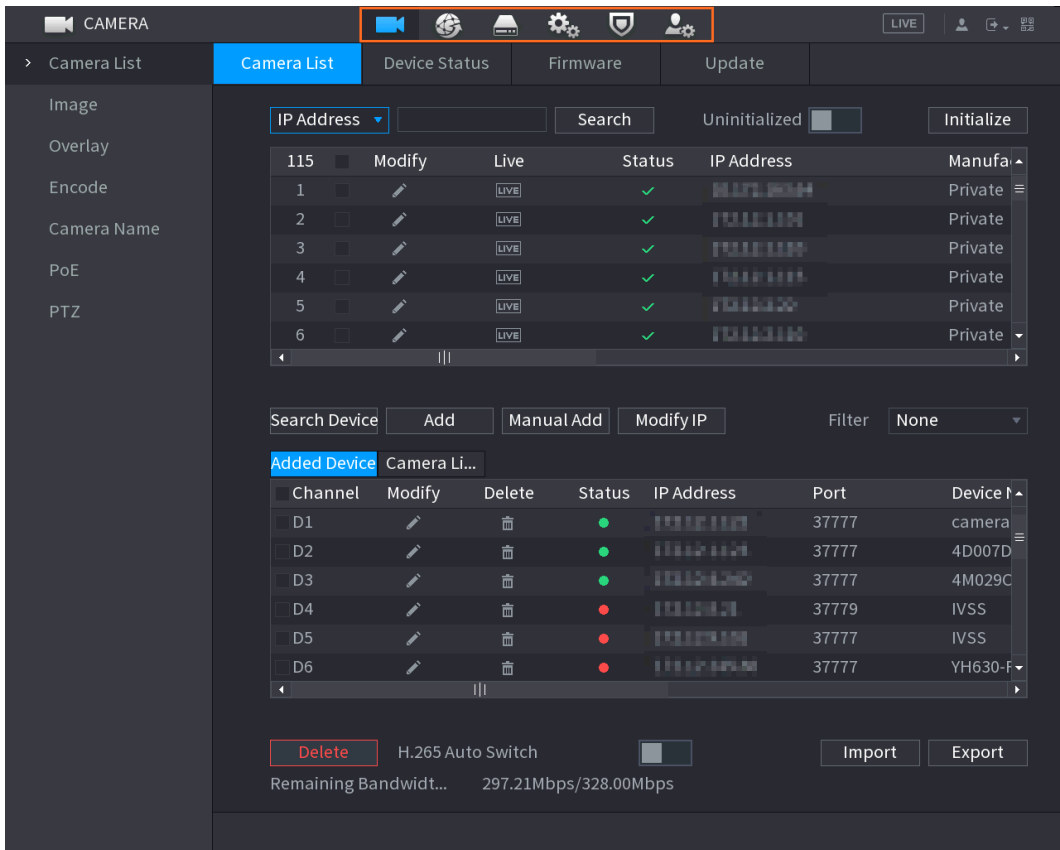

- iii. The interface will display a message indicating HDD quota capacity is insufficient, and will continuously prompt for insufficient quota capacity on local live view interface.

1.5.4 Quick Operation Bar

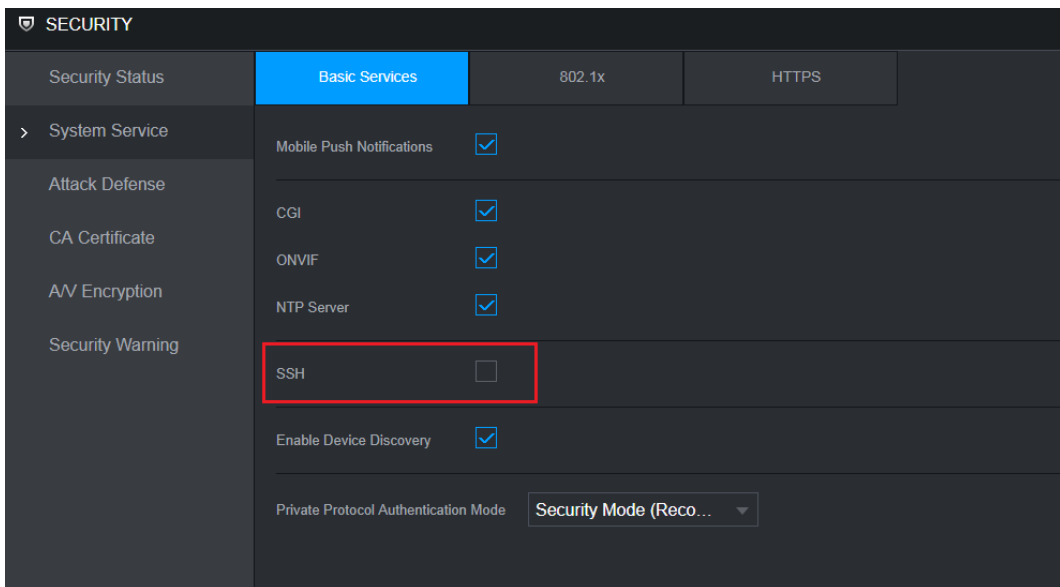

Quick operation bar is added to local GUI for fast jumping and better user experience. You can use quick operation bar to jump to other submenus of the same level.

1.5.5 SSH Service

The NVR supports SSH service and provides a SSH enable switch. SSH service is disabled by default.

1.6 Compatibility

This new baseline version is based on the version of Security Baseline 2.1, and it can be rolled back to the versions after Security Baseline 1.4, but cannot be rolled back to a version prior to Security Baseline 1.4.

1.8 Pending Issues

None.

1.9 Update Guide

1. You can upgrade the NVR by ConfigTool, web and USB flash drive. For details, see Upgrade Guide.
2. Services such as recording and live view will be paused during the upgrade process. The NVR works normally after upgrade and rebooting.
3. The upgrade does not affect previous settings of the NVR.
4. Do not power off during the upgrade process, or the NVR will not boot up properly.
